"Even though there's a nearby store, the locker comes in handy when you need something last minute or small."

- Shopper

"For us, this was a very significant innovation. It's very important that products are kept at the correct temperature. With this locker, we can provide our customers with high quality, fresh products."

- Retailer

"We are looking to place the lockers in strategic locations - in high traffic areas where customers can easily pick up their products. We're looking near office buildings, public transit and shopping centers. We want to simplify our customers' lives."

- Retailer
