DOE 2017 Energy Efficiency Compliant Hussmann refrigerated merchandisers configured for sale for use in the United States meet or surpass the requirements of the DOE 2017 energy efficiency standards.

* Some optional features may need to be certified by UL, NSF, and/or other 3rd party certification agencies. Contact Hussmann for verification or questions for availability.
† Only lighting configurations that are compliant with the U.S. Dept. of Energy (DOE) 2017 regulation are available for sale for use in the U.S.A.

NOTE: These merchandisers are designed for use in stores when temperature and humidity do not exceed 75°F and 55% R.H.

We reserve the right to change or revise specifications and product design in connection with any feature of our products.

Such changes do not entitle the buyer to corresponding changes, improvements, additions, or replacements for equipment previously sold or shipped. For additional resources, contact your representative or visit www.hussmann.com.

* Requires field wiring. Length dimensions are without optional bumpers.

** Refrigeration load calculated at 20° F evaporation and 110° F condensing temperature.
