Port-A-Pak Equipment Center

Port-A-Pak EQUIPMENT CENTER

PRODUCT DETAILS

ENHANCING OPERATIONAL EFFICIENCY AND EFFECTIVENESS

Port-A-Pak by Hussmann is designed with maintenance and service personnel in mind. This enclosed solution allows work to be conducted in a comfortable and spacious environment protecting employees and equipment from rain, snow, sleet, wind, and extreme weather conditions. Cooling coils can also be installed to accommodate areas with extreme heat.

The Port-A-Pak provides enclosure options including but not limited to:

- HFC centralized racks
- Cascade and Transcritical CO₂ racks
- Electrical systems
- Pump stations
- Backup generators

All above configuration options are factory installed, providing a complete ready to use solution. Port-A-Pak can be further enhanced on site with external options such as roof-mounted condensers, gas coolers, and more to create a true all in one solution for any application.

BENEFITS OF PORT-A-PAK

CONSTRUCTION EFFICIENCY AND SPACE FLEXIBILITY

Time & Cost Savings: Factory-installed components reduce delays, overtime costs, and on-site labor issues.

Versatile Installation: Adaptable for rooftops, mezzanines, or ground levels—optimizing space and lowering construction costs.

SPACE OPTIMIZATION AND REMODELING

Efficient Use of Space: Converts equipment areas into usable sales space.

Minimal Downtime: Facilitates easy store expansions or upgrades with minimal disruption.

COMPREHENSIVE EQUIPMENT & ELECTRICAL SOLUTIONS

Integrated Solutions: Includes refrigeration, electrical, HVAC, and more—all factory-tested for seamless integration.

Efficient Electrical Distribution: Custom-designed for quick installation on rooftops, mezzanines, or ground level.

QUALITY & DURABILITY

Weather-Resistant: Built to endure extreme conditions.

Superior Components: High-quality materials ensure long-term reliability.

CUSTOMIZABLE CONSTRUCTION & TAX BENEFITS

Tailored Options: Available in various sizes and materials to meet specific project needs.

Financial Advantages: Offers significant tax benefits compared to traditional installations.

To explore how Port-A-Pak can enhance your construction projects, contact Hussmann for tailored solutions and expert guidance throughout the process including coordination with your consultants and installers and dedicated Hussmann engineering contacts.

We reserve the right to change or revise specifications and product design in connection with any feature of our products. Such changes do not entitle the buyer to corresponding changes, improvements, additions, or replacements for equipment previously sold or shipped. For additional resources, contact your representative or visit www.hussmann.com.
